## MID-OCEAN VOTE.

Complications Likely to Arise from the Delay in Receiving the Ballots of Kansas Soldiers.

Topeka, Kan., Oct. 28.—The members of the First battalion of the Twentysecond Kansas regiment, which sailed from San Francisco for Manila, earry ballots with them and will vote on Kansas officers about midway between Honolulu and Manila. These 600 men live in western Kansas, where members of the legislature are usually elected by less than 25 majority. Both state committees admit that fully 25 members of the house in sparsely settled western counties will be chosen or defeated by this mid-ocean vote. But what worries them is the possibility of delay in receiving the returns here till February 1, one month after the legislature meets. THE PHILIPPINE DEBT.

If the United States Annexes the Islands Money Spent for Improvement Will Be Repaid by Us.

Washington, Oct. 28 .- The one concession as to Cuba that our commissioners at Paris can make will be to guarantee for the United States that life and property shall be secure in Cuba. The responsibility the United States will assume only as to such time as a stable government shall be formed and operative in Cuba. There will be no perpetual guarantee on this score. The American commissioners, among other things, have been looking into the subject of the Philippine debt, about which there is much ignorance at this end of the line. It is unlikely that the same rule will be applied to that debt as was insisted upon relative to the Cuban debt. In other words, if the United States annexes the Philippines, which seems now to be the logical outcome of the situation. it might be reasonably contended that at least so much of the debt as represented moneys expended for the improvement of the island should pass to the United States with the title. The situation is regarded as materially different from that in Cuba, where the United States gains nothing substantial, for, with the annexation of the Philippines, we should acquire a territory almost as large as the British isles, with a teeming population of more than 8,000,000 people. It will be for the American commissioners to arrange the details of the transfer of the Philippines to the United States, as it is expressly stipulated in the protocol that the disposition of the Philippines shall be left to the commission.

When within a mile of the St. Peter the crew on the Proctor were horrifled to see the distressed ship sink. In ten minutes the tug was cruising about the spot where she went down. Capt. Griffin was picked up in an unconscious condition. The wife of the captain was lost, also Mate McLaren, of Kingston. Eight persons at least perished.
